

MEZZANINE

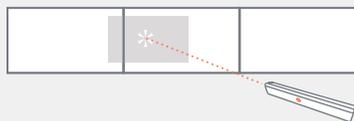

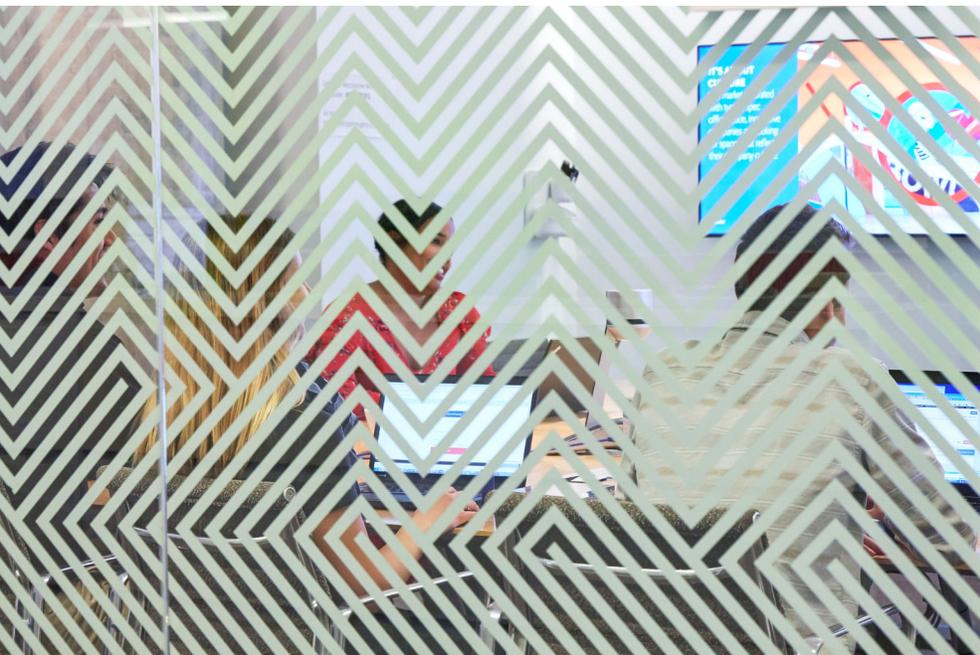

Enable Your Workforce
to Collaborate Like Never Before

The increasing speed and complexity of business means you need the very best tools to meet challenges quickly and effectively. Mezzanine's™ immersive data visualization solution changes the game—freeing your teams to share information broadly, analyze data intensively, and solve problems collaboratively.

Transform Meetings into Dynamic Immersive Collaborations

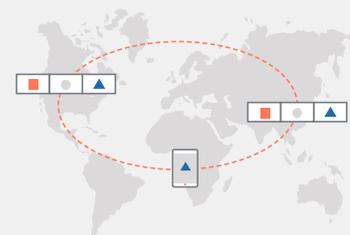

Mezzanine's state-of-the-art, 3D, visual collaboration platform gives your teams a huge competitive advantage. Mezzanine adds punch to presentations, delivering an unsurpassed visual impact that demands attention. Real-time collaborative content-sharing and interaction create a data-rich environment that engages teams in the work at hand.

Share documents and applications across walls with the simple wave of a wand.

Bring your own device to add content and interact seamlessly on any screen in real time.

Engage teams around the world by connecting Mezzanine rooms and remote participants.

Immerse With Infopresence

When disparate, complex sets of data are seen and available to all, teams get the big picture and can make better, more confident decisions. Only Mezzanine delivers **Infopresence**—the experience of commanding a dynamic, multi-surface, visual, and spatial environment that immerses you in live video, presentations, applications, and more.

Empower Your Workforce

From its next-generation gestural interface to BYOD-friendly controls, every aspect of Mezzanine is designed to empower and engage everyone on your team.

Widen Collaboration for the Future of Work

Workers are inspired to collaborate better when they bring multiple devices and locations into a shared workspace. Oblong caters to an increasingly mobile workforce with **Mezz-In**, allowing remote participants to join from anywhere, on any device. Now, everyone can share, see, and contribute, as if they were in the same room.

Mezzanine Features

IMMERSE PARTICIPANTS

Multi-Surface Interaction

Present and share content and video streams across multiple displays and walls.

Flexible Screen Configurations

Customize your workspace with a variety of screen configurations.

Interactive Canvas
